

Casamilano

Bianco Namibia

Origin: Africa.

Marble characterized by the pure crystalline white color, with clear gray transparent veins. For a correct seal, it is recommended not to pour acid substances such as carbonated and / or alcoholic drinks, oils, wine, vinegar, citrus fruits or to remove them immediately, so as not to damage the polishing.

For cleaning, we recommend very delicate products, without thinners or corrosive substances. Subjected to a stain-resistant treatment. As marble is a natural product, any visible defects are to be considered as characteristics of the marble itself. As marble is a natural material, the veins and color tones can vary from slab to slab. Therefore the images are to be considered purely indicative.
