

Casamilano

Polvere C7.

Material made using artisanal and textural techniques, featuring shaded and delicate nuances. The protective and transparent finish, designed to withstand outdoor conditions, preserves and maintains the surface. Any chromatic and textural differences such as small imperfections (stains, porosity, thin surface cracks) are characteristics of the manual processing, that do not compromise the quality of the product and make each piece unique.

The colours on the screen, for well-known technical reasons, are indicative only and may differ from the actual finish and the availability of the material.
